

## Invertebrate species seen in Selsdon Wood (excl Butterflies & Moths)

The dates in the columns show first sightings in any one year. Regular records only started in 2020 so dates in the Previous column are drawn from website photographs. **Red text shows species recorded for the first time in this year.**

Species are listed in alphabetical order of English names and Latin names are not given (except in the few cases of those with no English name). All Latin names are given on the website.

Initials are given of those reporting the sightings as follows - Tony Flecchia (TFI), Steve Budd (SB), Ruth Budd (RB), Rosalyn Heaton (RH), Jo Wheeler (JW), Neale Fox (NF), Heather Govier (HG), Peter Underwood (PU), Daniel Bound (DB), Lorna Wall (LW), Karen Fox (KF), Frank Kippin (FK), Owen Moore (OM), Andrew More (AM), Scott McCulloch (SM), Mark Shoesmith (MS), Cathy Logan (CL)

Most of our species lists are based on a booklet entitled "*Selsdon Wood Nature Reserve - Its history and Management: Some records of Flora and Fauna*" which was produced in 1978 by Jack Penry-Jones on behalf of the Croydon Natural History and Scientific Society. This contains a lists of many species seen in our wood but does not cover most invertebrates - only "Macro-lepidoptera" (butterflies and moths). These are recorded in a separate species checklist so are excluded from this one.
